ENAGIC MALAYSIA COMMISSION CHART

For emGuarde-only Distributor

A person who joins Enagic as a distributor by purchasing emGuarde, without owning any core products of Enagic, will be referred to as an "emGuarde-only Distributor." The commission eligibility will be adjusted to 77.7% of the basic commission for all products sold, including both core and non-core products. (Note: The commission amount depends on the distributor account's sales status.)

Commission on Core Product Sales

To calculate commissions for any core products, refer to the [Kangen Distributor Commission Chart](#) and use the same formula to determine the amount.

The commission for an emGuarde-only Distributor selling a core product of Enagic will be calculated as follows:

Formula:

Basic Commission x 77.7% + SP

Example:

1. Leveluk SD501 (Single Payment):

RM 710 (Basic Commission) x 77.7% + RM290 (SP) = RM 841.67

2. K8 (24 Month Insatallment):

RM 834 (Basic Commission) x 77.7% + RM 250 (SP) = RM 898.02

Note:

Once an emGuarde-only Distributor self-purchases and owns a core product (Kangen Machines, Anespa, Ukon DD, or Ukon Sigma), the commission eligibility will be the same as an Kangen Distributor, allowing you to earn the full basic commission on future sales (T&C applied).
